

#Droolworthy Branding For Your Biz dox design[®]

Hey! I am Kaila. Nice to meet you.

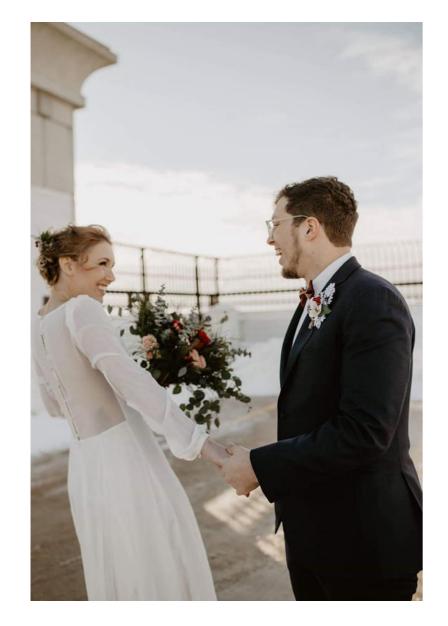

Dox Design Turns 5!

We have worked with over 100 brands

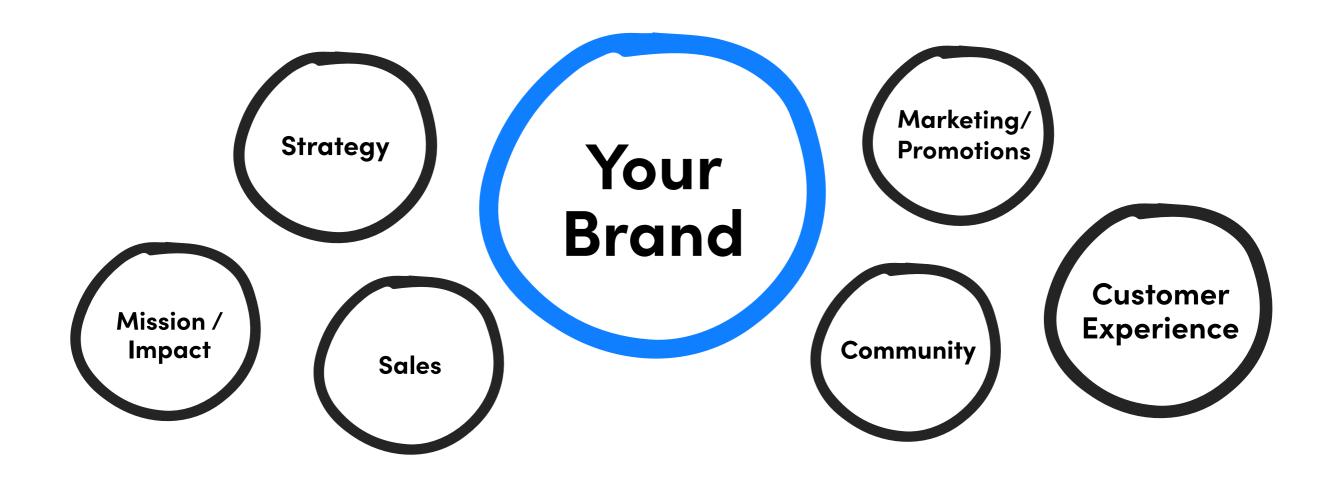

What we do.

We breathe life into your brand's mission, vision, and values with the power of visual storytelling.

How do we do that?

It isn't a nice to have...

You might think you have "enough" with steady clients. But what do people say when you leave the room. What lasting impact do you want to make.

It's more than colors, you need to connect.

Your brand is your legacy it is who you are remembered as when you leave the room.

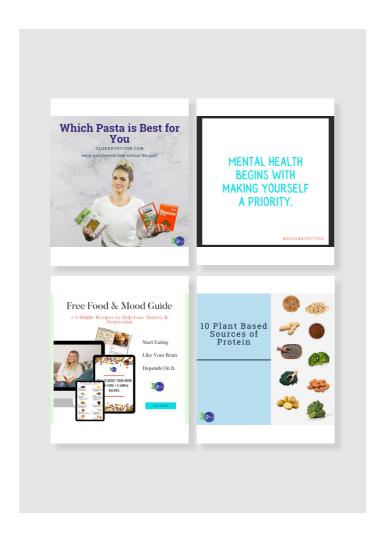

You need to wow them.

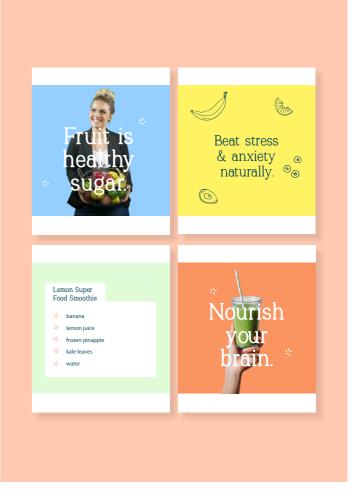

MEH

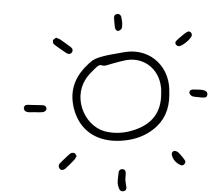

So HOW do we speak to your customers, wow them, and make a lasting impression for your brand.

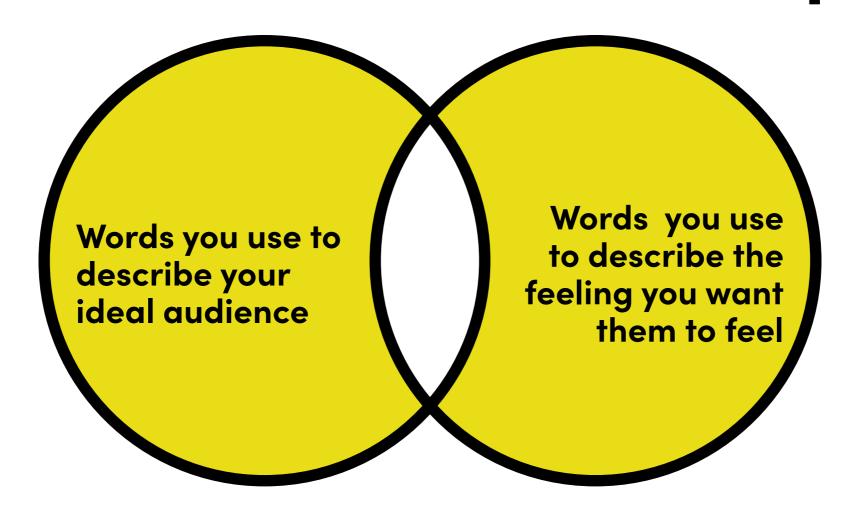

With your brand vibe and niche.

You don't want to be everything to everyone. When you have a deep understanding of your ideal customer you're able to turn one-time buyers into loyal customers for LIFE.

Audience and tone overlap

What is your brand tone aka your vibe?!

What would catch your eye?

What online experience?

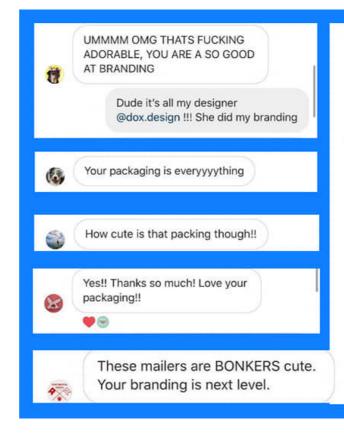

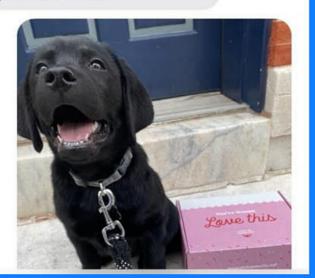

Now back to the logo...

Not saying this bc I've been obsessed with DOCC since I moved here. You have THE BEST BRANDING I've ever seen in a company and I LOVE IT

Take a look at your brand right now can you confidently say that where you are and where you want to go is working.
